- 19 Years Served with Suffolk County Police (Reserve Officer)

* PSEG; Verizon; PepsiCo; TBTA

Hazardous Material Presentation Logistics

- There should be no doubt of the need for training as it is clearly spelled out in the DOT HazMat Regulations
- This course has been designed to help industry drivers learn how to safely handle & transport refined fuels and to comply with OSHA and DOT regulations that are **not** optional (HM126f & HM 232)
- Companies are also responsible for providing formal on-the-job training and truck-specific education in addition to the safety practices that are included in this program
- PHMSA has an archived webinar— a 26 minute must view at your office!
Stop @ 4:10 <https://youtu.be/wDSMEruhtKA>
- PHMSA is very specific in the area of testing - passing grade - 80% for this 20 question quiz covering all 7 topics
- A 'record of training' form will be sent to each company for each attendee – good for 3 years
