

# Low Voltage Wiring Fundamentals

- **When:** Wednesday March 4<sup>th</sup> 2026
- **Time:** 8AM-11AM
- **Where:** 131 East Ames Ct Plainview NY
- **Cost:** \$195

This focused course provides HVAC technicians, apprentices, and installers with essential knowledge and hands-on skills in **low voltage wiring** for heating and air conditioning systems.

Focus is on zone valve and thermostat wiring for heating, cooling and heat pumps including Wi-Fi thermostats. Participants will learn to safely install and troubleshoot 24V control circuits.
